

JOHN J. PUCILLO

Senior reliability, operations, and product management professional with 40+ years of experience executing effective programs and strategies to meet business goals. Skilled in management, product development, deployment, and workflow optimization to lower costs. Expert in data-driven analysis for process improvement, failure elimination, and client collaboration.

PROFESSIONAL EXPERIENCE

True Reliability 02/2020 to present

- **Principal Reliability Consultant**
Maintenance and reliability consulting to enhance operations by optimizing work management, CMMS, planned and proactive tasks, MRO, workflows, and metrics for successful deployments.

Life Cycle Engineering 05/2019 to 01/2020

- **Director, Advanced Predictive Maintenance**
Launched products and services for LCE's advanced predictive maintenance strategies, including next-gen PdM, IIoT, digital transformation, and improved asset monitoring and analysis.

SEAM Group LLC (formerly Predictive Service LLC. - acquisitions) 02/2007 to 01/2019

- **Executive Vice President, Electrical Safety & PdM Operations**
Business unit leader overseeing Electrical Safety, Predictive Maintenance, and Lockout/Tagout (LOTO) offerings. Accountable for P&L of a 118-person team generating over \$20MM annually. **Director, Product Development** – Leading new product development, marketing, collateral, and ownership of web and mobile applications.

Rockwell Automation 11/1989 to 2/2007 (formerly Entek IRD International Corp. & IRD Mechanalysis - acquisitions)

- **Director of Service Operations**
Oversaw P&L for a 75-person Service Operations team generating \$10MM annually, encompassing support, contracts, helpdesk, training, and field services. As Field Service Manager, led PdM program delivery, created service offerings, marketing materials, and supported sales efforts.

Virginia Power - Chesapeake Energy Center 5/82 to 11/89

- **Senior Engineering Technician**
Responsible for all PdM activities, working collaboratively with maintenance planning on outage support and scheduling. Gathered predictive data, performed analysis, balancing, and online vibration monitoring along with TSI systems.

EDUCATION
